

“If at first, the idea is not absurd, then there is no hope for it” (Albert Einstein)

ZONNEWATER IS ACTIVE IN THE FOLLOWING FIELDS:

Aqua Solaris, Small scale Solar Desalination Units for household purposes and remote places. Several aspects patented. Several pilots. (Africa, Asia, Caribbean, Netherlands).

Urea harvesting device, development with several scientific and commercial organisations to treat black water at the source, first pilots expected early 2007, patents granted.

Green house of the future, same crop yield with 50% less energy consumption status, drawing board.

Natural rain production using solar energy to create heath chimney in deserts. Based on the ideas of Brussels University. We add several own success factors to enable customers to order rain, just on time. Status: discussion with US based institutes, drawing board.
